

Number of permutations: 100
Number of bootstrap samples: 100
Row bootstrap sample fraction: 90.0%
Column bootstrap sample fraction: 90.0%
Number of perturbations: 100
Scale factor for perturbations: 0.1
Normalization: z-score
Random seed: 42

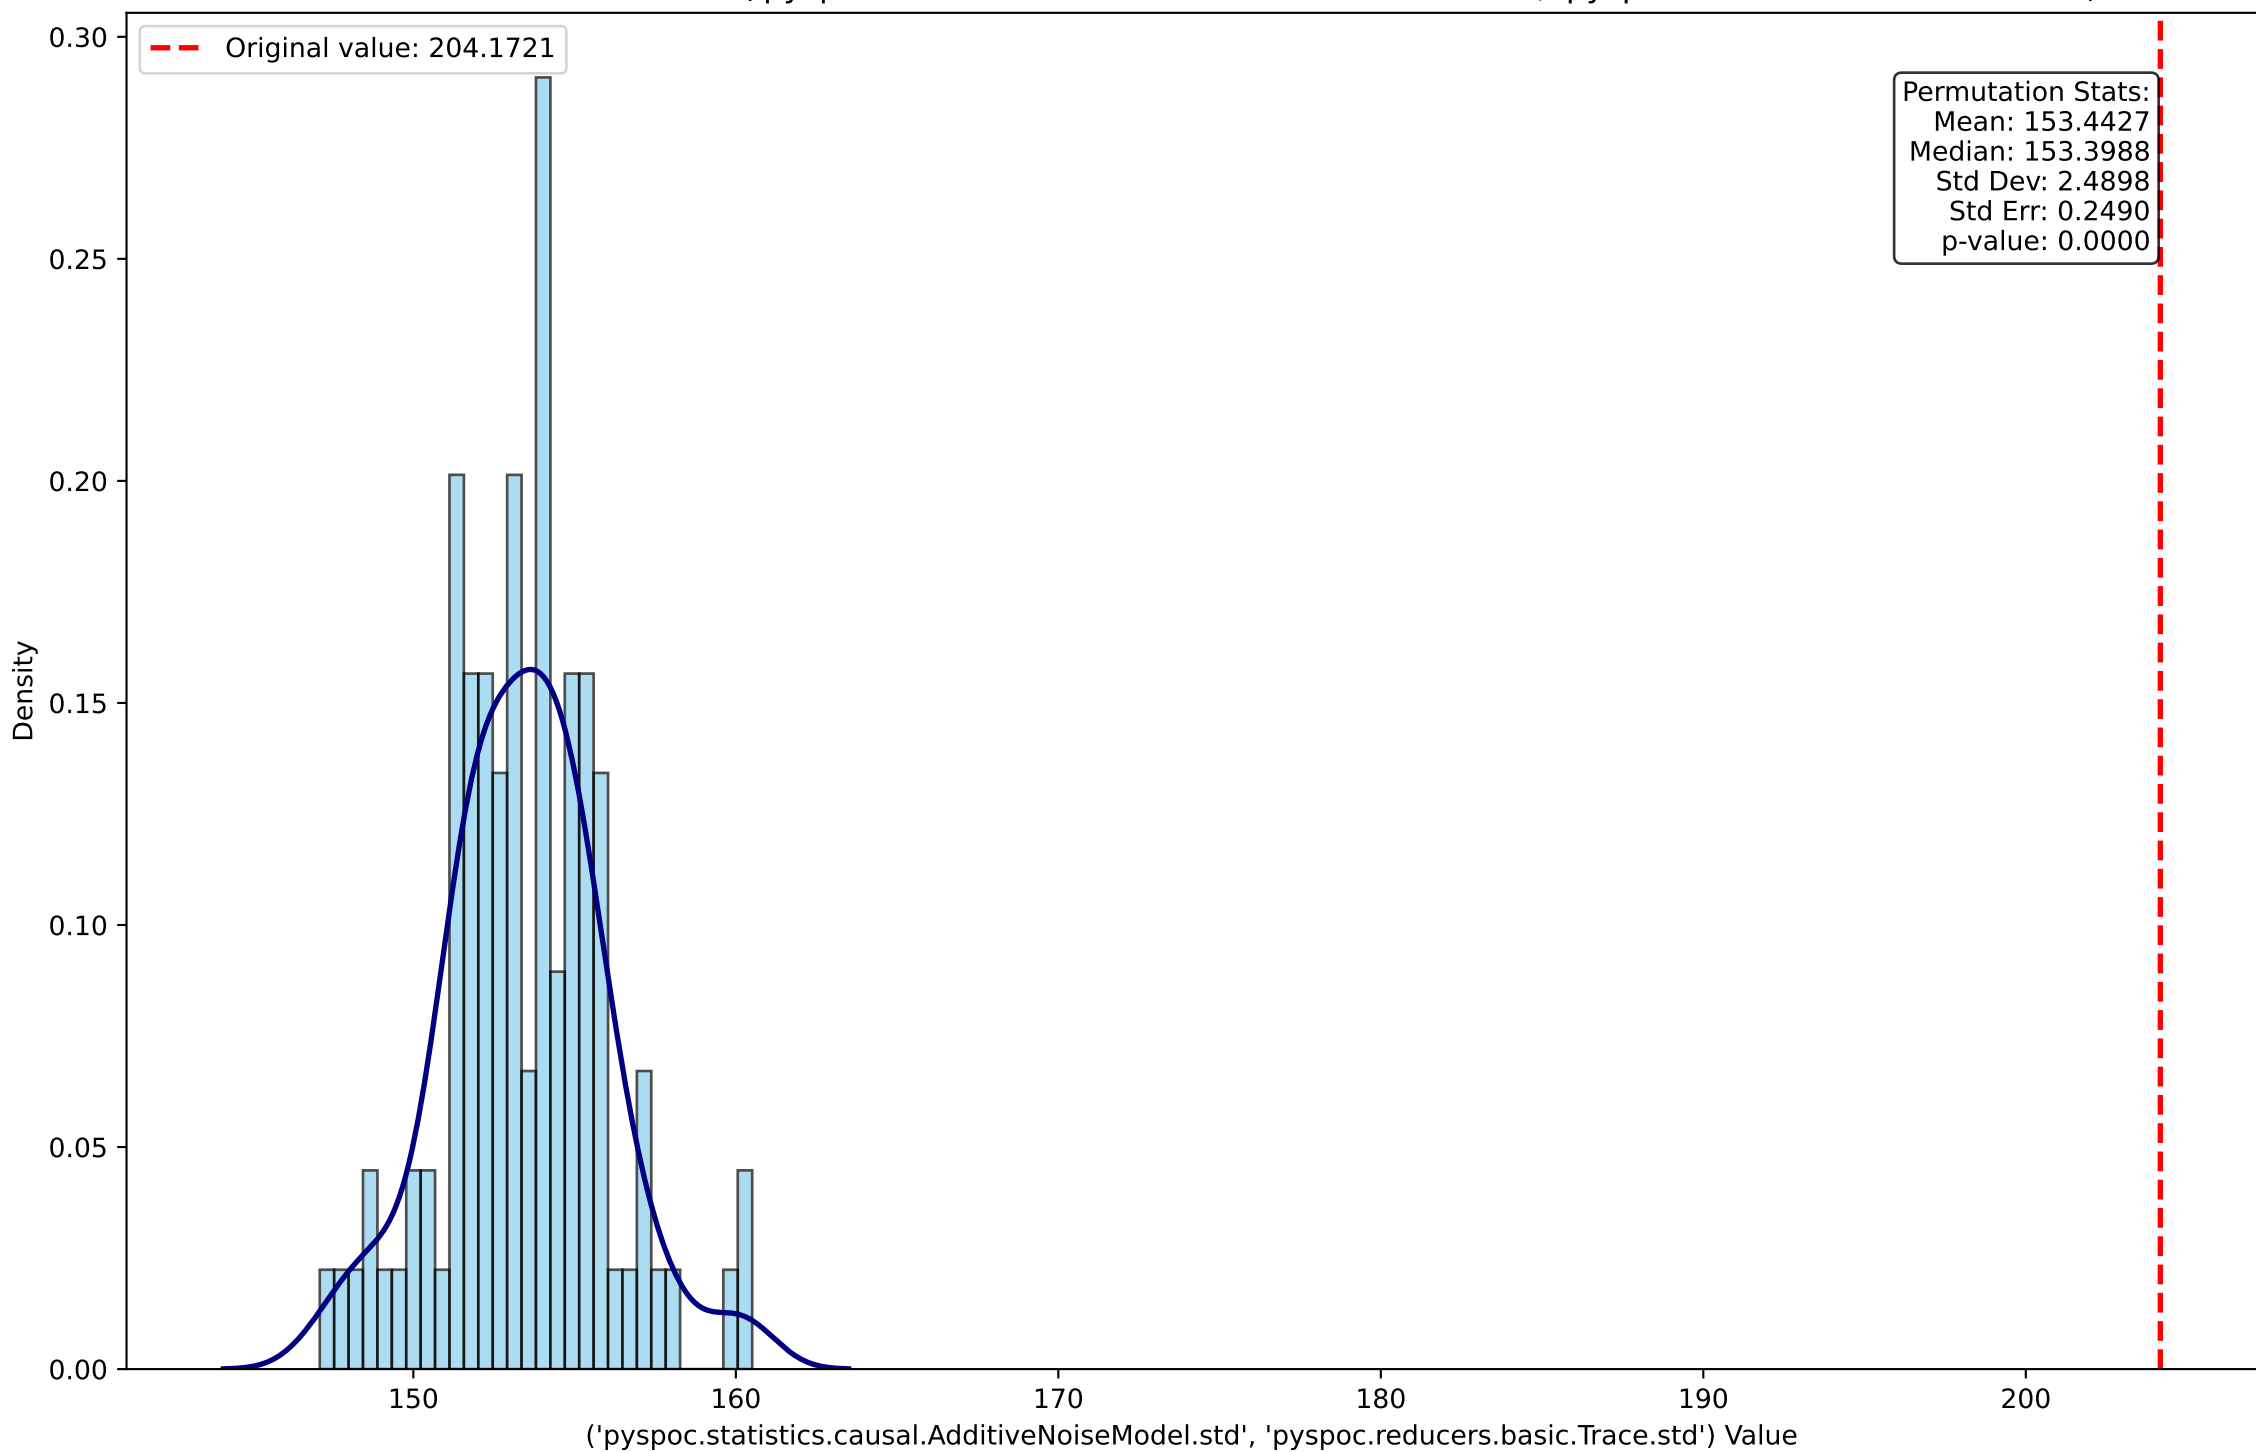

Permutation Distribution for ('pyspoc.statistics.causal.AdditiveNoiseModel.std', 'pyspoc.reducers.basic.Diag.std_1')

Permutation Distribution for ('pyspoc.statistics.causal.AdditiveNoiseModel.std', 'pyspoc.reducers.basic.Diag.std_2')

Permutation Distribution for ('pyspoc.statistics.causal.AdditiveNoiseModel.std', 'pyspoc.reducers.basic.Trace.std')

Permutation Distribution for ('pyspoc.statistics.causal.ConditionalDistributionSimilarity.std', 'pyspoc.reducers.basic.Diag.std_1')

Original value: 0.0000

Permutation Stats:
Mean: 0.0000
Median: 0.0000
Std Dev: 0.0000
Std Err: 0.0000
p-value: 0.0000
